EDUCATION

Indian Institute of Technology Jodhpur

Bachelor of Technology in Computer Science and Engineering; CGPA: 7.84/10

Jodhpur, India

Jul 2024 – May 2028

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, C

Frontend: React.js

Backend: Node.js, Express.js, FastAPI, Prisma

Databases: MongoDB, PostgreSQL

AI/ML: Scikit-learn, Pandas, NumPy

Developer Tools: Git, GitHub, Socket.io

Core CS: Data Structures & Algorithms, REST APIs

EXPERIENCE

Summer of Bitcoin Finalist

Remote

Open Source Contributor

Jan 2026 – Apr 2026

- Advanced through three evaluation rounds covering Bitcoin protocol design, distributed systems, and software engineering as part of a competitive open-source contributor selection process.
- Authored a technical proposal outlining an implementation plan, performance optimizations, and contributor roadmap for open-source Bitcoin infrastructure.

GirlScript Summer of Code (GSSoC)

Remote

Open Source Contributor

2025

- Landed 20+ merged pull requests across multiple open-source repositories, resolving bugs and improving code maintainability in collaboration with project maintainers.

PROJECTS

HackSprint | Hackathon Management Platform – MERN Stack

GitHub | Live

- Built a full-stack hackathon management platform that powered two large-scale institute events end-to-end for 5,000+ participants.
- Automated the participant lifecycle – registration, team formation, submission tracking, and leaderboard generation – streamlining operations for organizers.
- Optimized MongoDB schema design and query patterns to sustain high-concurrency access during peak submission windows.
- Selected as the official platform for the upcoming Summer SBI Hackathon after deploying and scaling the system for institute-wide use.

Queueless | Smart Queue Management System – React.js, TypeScript, Node.js, FastAPI, MongoDB, Socket.io

GitHub

- Engineered a full-stack queue management platform enabling real-time customer tracking and service monitoring.
- Built a dedicated FastAPI service using Scikit-learn to predict customer wait times from historical service durations and live queue state.
- Implemented WebSocket-based communication via Socket.io, delivering sub-second updates between customer and operator dashboards.
- Implemented JWT-based authentication, role-based access control, and schema validation to securely isolate customer and salon-owner data across multiple tenants.

PHC | Primary Health Centre Integrated Digital System – React.js, Node.js, Express.js, PostgreSQL, Prisma

GitHub

- Architected an integrated healthcare platform for IIT Jodhpur, unifying patient records, pharmacy operations, and appointment workflows into a single system.
- Implemented role-based access controls spanning doctors, pharmacists, administrators, and patients to enforce secure, compartmentalized data access.
- Modeled the end-to-end system using UML diagrams, database schemas, and workflow diagrams.

POSITIONS OF RESPONSIBILITY

Society of Alumni Affairs (SAA), IIT Jodhpur

Jodhpur, India

Coordinator

Jun 2025 – Apr 2026

- Coordinated alumni outreach and networking initiatives, serving as a liaison between the alumni community and current students.

ACHIEVEMENTS

JEE Advanced AIR 6820 | JEE Main AIR 21,615 | VITEEE AIR 2346 | Summer of Bitcoin Contributor (Finalist)
